Dear Customer, From 25-

### Security Tip to avoid Phishing attacks :

Banks never ask their customers to provide their username, password, or credit card numbers through e-mails. User ID and password should not be parted with for any purpose other than transaction. Never click any link given inside the e-mail message. Directly type the URL of your Bank in address field of browser. If you do not know the URL of our bank's website, take time to call the Bank immediately to find out. Our bank's URL is as under :

<https://www.centralbankofindia.co.in>  
<https://www.centralbank.net.in>

Check the language and spelling of the text contained in the e-mail. If you find misspelled words or substandard language, conclude that it is not from bank. If the e-mail urges to act immediately without delay, such a request should be ignored. Such a request may be a tool to create panic.

Never provide your personal information to anyone who asks for it over the Internet. Do not respond to such request. These may be phishing attacks. Do not click on any link in an e-mail unless you are sure of its source. Do not click on any link in an e-mail unless you are sure of its source. Do not click on any link in an e-mail unless you are sure of its source.
